Avery Dennison Graphics Solutions

Imagine New Possibilities

Products for every graphic application.

Our high performance, pressure-sensitive materials are found in thousands of products used everyday around the world – in digital, screen print and sign cut applications, such as vehicle, building graphics, marine and fleet graphics, architecture and advertising. Our complete line of products are designed to meet every graphic application need.

These uniquely flexible films in a range of sizes offer best-in-class quality and allow users maximum leverage in highlighting key innovations and new product lines. They also offer:

- > Easy installation and removal
- > Print consistency across all platforms
- > Superior depth of image color, gloss and smoothness
- > The Avery Dennison technical excellence and responsive customer service

Everyday... everywhere.

Avery Dennison is constantly innovating to make graphics more exciting, noticeable and easy to install. Decades of know-how and the latest technologies – like Easy Apply™ RS Technology, our Supreme Wrapping™ Film and Digital Overlaminates – allow us to help our customers consistently transform ideas into impactful messages.

everywhere
YOU LOOK

Look around – on buildings, in the street, around the corner – it's a safe bet that you'll see Avery Dennison Graphics Solutions at work. Avery Dennison is a world leader in graphic films that identify, promote and inform. We use our extensive experience and creativity to help companies across the world bring brand visions to life in powerful and exciting ways.

Case Study

Road Scholar Transport

Vehicle Graphics

Marine, RV, OEM Graphics | Safety and Emergency

Awareness is the first and most important step for a brand. Similarly, in the nonprofit world, informing the public about an organization is necessary to inspire donations and new volunteers, and this can be quite a feat, considering the number of nonprofits competing for attention. Road Scholar Transport of Pennsylvania found a unique way to cut through the noise by promoting charitable causes through vinyl fleet wraps. It started with Road Scholar Transport completing a wrap with Avery Dennison MPI 1105 Supercast Easy Apply RS™ for the American Breast Cancer Foundation on one of his tractor trailers. Pink trucks, after all, are bound to get people's attention. The company's Awareness Program launched shortly after, with the mission of raising awareness for causes that are valuable to society.

"MPI 1105 has looked great in printing and application on our regular Road Scholar trucks. It was a natural progression for us to use the film in supporting our Awareness Program, which would require a suitable printed film."

Jim Barrett, Road Scholar Transport

Product Recommendation:

Avery Dennison MPI 1105 Supercast Easy Apply RS™

Case Study

The Germantown Mill Lofts

USA Image was tasked with capturing the history of a recently repurposed mill. The Germantown Mill Lofts, a residential project that converted an old mill in Louisville, Ky, into lofts, now features large, mural-style photographs from when the mill was in operation. USA Image printed MPI 2105 vinyl film to showcase pictures of mill workers on 12 walls throughout the space. Durable vinyl film, along with DOL 2080 Matte Overlaminates, allowed them to transform forgotten photographs into a living, breathing homage to the building's humble beginnings.

"I chose Avery Dennison film for this project, because I know it will last. MPI 2105, specifically, is a great choice for more permanent graphics."

John Lawson, USA Image

Case Study Outdoor TRENDS

The German furniture chain TRENDS was in the market for an eye-catching, long-lasting finish for its large aluminum roof. Eventually, it settled on Avery Dennison 900 Supercast vinyl film. Installation went quickly, and it's a hit with consumers. TRENDS is now considering similar projects for its other stores.

"Using Avery Dennison 900 Supercast film, the installation was completed very quickly, proving once again that vinyl is quicker to apply than paint."

Martina Gralki, who oversaw the conversion

Product Recommendation:

A wide range of Avery Dennison 900 Supercast films
Avery Dennison Custom Color Matching
